

Conewago Valley School District Counselors' Corner

January 2020

Colonial Career and Technology Center

Ready for Students!

Programming at the CCTC

As a part of the Road to Relevance (R2R) effort the Conewago Valley School District is proud to have the Colonial Career and Technology Center up and running. Many outside companies have assisted with planning, outfitting, donating and guiding the process. We are grateful to have had so much support from our community and our students are benefiting on a daily basis. In addition to the programs below, students are able to get certified in forklift operation, secure part time work while still in high school and make solid connections with area businesses that have openings.

Current programs include:

Welding
Precision Machining
Construction Technology
Mechatronics
Graphics
Drafting
Photography

This state of the art 25,000 square foot facility has modernized our technology education offerings and we expect that our local job market will be positively impacted by the skills our students can gain using this space and the associated machines.
