

## Using Study Island from Home

Study Island is completely Web-based, which allows students to access the program from any computer with an internet connection and a standard-Web browser, as well as mobile devices. Study session results are automatically recorded for teacher review, including results from sessions completed outside of school.

The program is divided into sections based on subject (math and reading). Each section is made up of 15-30 topics, with each topic containing about 20-30 questions. Topics are accompanied by a lesson, which contains a brief overview of the material covered in that topic. There are even new math and reading sections based on the Pennsylvania Common Core State Standards, as well as the Common Core.

Follow the steps below to use the program:

1. Go to [www. Studyisland.com](http://www.Studyisland.com).
2. Enter your username and password at the upper left side of the screen, and click "Submit". Students have received a username and password from their school.
3. Click on a subject (math or reading).
4. If this is the first time using the program, click "Pretest". You must complete a pretest in each of the six areas before the rest of the content is unlocked in each of those areas. Not all six pretests need to be completed at once. Just the pretest for the area that has been assigned.
5. Choose a session type. The default is practice mode, however students may also select Printable Worksheet or Game Mode if permitted.
6. To pass a topic, you must meet the passing requirements, which are based on a minimum number of questions answered (usually ten) and a minimum percentage correct (around 70%). A blue ribbon icon is displayed next to all passed topics.
7. Once you have completed the Pretest, you may work through the remainder of the topics in any order. You must pass all topics before taking the Post Test.
8. Once you have passed all the topics, you must pass the Post Test to complete the subject. Ignore this step if you the subject has no Post Test.
9. When you pass all topics in all subjects, you have completed the program.

To Access Reports:

Select a subject under Reports on the left-hand side of the screen to access your reports.
